IDENTIFIERS *Pakistan

ABSTRACT

The comprehensive bibliography is a compilation of twentieth century documents about Pakistan prehistory from Paleolithic times to the arrival of the Greeks in approximately 330 B.C., also includes some of the major archaeological studies in adjacent countries which have a bearing on the interpretation and comparative analysis of Pakistan prehistory. Entries are listed alphabetically by author and by dates under each author. A cross-index at the end of the bibliography organizes the entries by topical and regional studies. A map of the major regions and river valleys of Pakistan and the surrounding countries is also included. (ND)

1975

APR 13 1978

PREFACE

For almost a century archaeologists have been interested in the archaeology of Pakistan. However, most of this interest has concentrated on the study of the Indus Valley civilization (c. 2500 to 1800 B.C.). This publication is an attempt to compile a comprehensive bibliography of Pakistani prehistory from Paleolithic times to the arrival of the Greeks approximately 330 B.C. It also includes some of the major archaeological studies in adjacent countries, which have a bearing on the interpretation and comparative analysis of Pakistan prehistory.

The reader will quickly notice that the bibliography is listed by author and dates. Any attempt to place these articles and books into distinct topical or regional studies would have created confusion, since there would have been multiple listings of the same source. Instead I have provided a cross index after the bibliography, which while by no means exhaustive, will permit the researcher some basic direction in using the bibliography. I hope this bibliography will provide an alternative for researchers, who may be unaware of many of the journals and articles not frequently covered by other bibliographic sources such as COWA.

ACKNOWLEDGEMENTS

I wish to acknowledge the support of Dr. Joseph L. Chartkoff, who suggested this project and encouraged its completion.

My thanks and sincere appreciation to Dr. William T. Ross of the Asian Studies Center for taking an interest in this report, so that it could reach its published form. He offered much valuable advice.

I am also grateful to Dr. Eugene deBenko of the MSU library, who guided me to bibliographic sources I would otherwise have missed and who offered many needed suggestions concerning the format of the bibliography.

I wish to thank my fellow graduate student John B. Van Allsburg who translated German titles for me and suggested potential bibliographic sources.

Finally, I cannot begin to show my appreciation to Marilyn M. Wilcox and Anne Featherstone, who had the patience to type and help proof this lengthy compenduim. My sincerest thanks to them for performing a tedious task.

However, I assume full responsibility for any errors present in the report and I apologize to the reader if they cause any confusion.

MAJOR GEOGRAPHICAL AND POLITICAL FEATURES
OF THE DISTRICTS OF PAKISTAN

Northern Baluchistan

Sulaiman Range
Loralai and Zhob Districts
Toba-Khakar Ranges
Quetta Basin
Khalifat Massif

Southern Baluchistan

Kirthar Range
Makran Coast
Mashkel and Lora Basins
Chagai Hills

Sind

Lower Indus Valley and Its Floodplain
Western Portions of the Thar Desert
Khairpur District
Deltaic Area Around Karachi

Punjab

Multan District
Lahore District
Rawalpindi District
Bahawalpur District
Sargodha District
Includes Parts of the Chenab, Ravi, Jhelum, Sutlej and Upper Indus Rivers
Also the Dry Bed of the Ghaggar River

Northwest Hills or Northwest Frontier

Chitral
Swat
Kalam
Hazara
Indus Kohistan
Vale of Peshawar
Pezu Gap
Potwar
Kohat and Bannu Fossil Lakes
Waziristan
Khyber Pass
Gomal River
Kurram Mountains and River

Important Features in Adjacent Countries

Afghanistan

Parts of Waziristan
Kurram Mountains
Kabul-Khyber Hills
Safed Koh

India

Saravasti, Sutlej Rivers (Punjab)
Upper Ghaggar River (Rajasthan)
Ganga and Beas Rivers
Berach Basin
Thar Desert (Rajasthan)

India (continued)

Bikaner District (Rajasthan)

Rann of Kutch (Gujerat)

Halar and Sorath Coast (Gujerat)

Gulf of Cambay (Gujerat)

Iran

Seistan Basin
